ANALYZE

CQMsolution® is a user-friendly, browser-based application for calculating, displaying and generating CQM output. The software has received the latest ONC certification (2015), and is always on the leading edge with new Cypress versions.

CQMsolution® supports all eQMs for MIPS/QPP, MU 3 and Hospital Quality Reporting Program (IQR and EHR). It outputs QRDA I files specifically formatted for submission to QualityNet.

CQMsolution is the optimal tool to satisfy eCQM reporting requirements. As a CMS Qualified Registry and a Joint Commission ORYX® vendor, Dynamic Health IT is ready to assist you with successful reporting to quality programs. More than 50 EHR vendors and numerous hospitals rely our quality measure expertise.

Features:

- Perform optimal calculation of CQMs for submission
- Dashboard that measures your performance
- Automatic reports to save time
- Drilldown to improve your score
- API for QualityNet and Cypress
